### Learning Contract

| Teacher tool | ✓ | Student tool |
|--------------|---|--------------|
|              |   |              |

A learning contract is a working agreement between a student and the teacher that outlines how that student will meet specific learning objectives. Such a contract permits students to have control over their learning, with teacher approval. It also allows students to design a series of learning experiences that will result in certain types of learning. The teacher must approve the learning contract.

Self-evaluation: For each learning objective, describe whether you met that objective and the evidence that supports your conclusion.

Teacher evaluation: For each objective, assesses the student's achievement and comment on the evidence.

Alternative Project Proposal

**Teacher tool** ✓ Student tool

Students can learn more and become more engaged when they can choose certain aspects of their learning, in appropriate ways, at appropriate times. You can create a menu for students with ways to learn a portion of the content or demonstrate goal achievement. You can also give students the option of creating their own alternatives for learning a portion of the content or demonstrating goal achievement.

Students generally benefit from choosing from a list of teacher-created alternatives initially. As students become more familiar with the process, they can generate their own ideas. Students' success in creating alternatives for their learning depends, in large part, on the quality of the learning goals that you have created and shared.

Distribute the worksheet to students so that they can design their own projects for design nated units of study.

Carefully review the description, goals, and criteria for the class assignment. If you decide that you would like to propose an alternative project, follow the steps below:

- 1. Complete all parts of this form.
- 2. Submit the completed form to me by \_\_\_\_
- 3. Meet with me to review the proposal on a date that we have agreed on.
- 4. Clarify any questions and complete a project time line.
- 5. Follow the time line and submit the final project by \_\_\_\_

Class/Period: \_

- 1. This project proposal is submitted to take the place of class assignment: \_
- 2. Briefly describe the project you are proposing as an alternative to the class assignment.
- 3. Write the learning goals provided for this assignment, and describe the activities you will accomplish to meet those goals. In the last column, describe how you will show me that you have met the learning goal once you have accomplished the proposed activities.

| Learning Goals | Proposed<br>Activities | Materials Needed | Completion Date | Evidence of Goal<br>Achievement |
|----------------|------------------------|------------------|-----------------|---------------------------------|
| <b>y</b> ,     |                        |                  |                 |                                 |
|                |                        |                  |                 |                                 |
|                |                        |                  |                 |                                 |
| ÷              |                        |                  |                 |                                 |

- In your presentation, tell the class:
  - How you became involved with the topic
  - How you came to know your topic
  - Why you enjoy your topic
  - What makes your topic interesting
- Provide the class with information that could stimulate them to investigate this topic.
- Offer the class a list of resources, websites, books, or other materials that could get other students started on your topic.
- 4. Your passion project will be graded based on the rubric attached. Your grade on the passion project will replace the grade on the unit project.
